AGENDA ITEM NO. 1: OPEN MEETING AND WELCOME
Kevin Campbell, Vice Chairman, called the meeting to order at 3:03 P.M. and asked if the Agenda had been posted in accordance with the law; Nilda Sanchez responded affirmatively.

AGENDA ITEM NO. 2: COMMUNICATION / INPUT FROM CUSTOMERS AND RESIDENTS OF HARLINGEN
Vice Chairman opened the floor to Public Communication/Input and stated public input would be heard but no comments or action would be taken from the Board at that time.

Gilbert Galvan, Real Estate Agent and developer with Oak Land Estates, expressed his concern regarding the Waterworks' new construction standards for new development. He stated that Phase 2 of his development had already been approved and suddenly a new set of criteria was implemented by the Waterworks. He questioned the reasoning behind the decision since manholes of the prior standard had been accepted for development
over the prior twenty years. Mr. Galvan concluded by expressing his concern that the recent development upgrades are an unnecessary expense for developers.

Armando Elizarde, a developer in the City of Harlingen, expressed his concern regarding changes that new engineering staff at Waterworks and the City of Harlingen had begun to require. Mr. Elizarde voiced his concern for Adam’s Crossing Phase 5. He explained pipes were already set in the ground and cannot go back to re-pipe the subdivision to meet the new development standards the Waterworks has implemented. Mr. Elizarde claimed warranty requirements had been increased from one year to eight years.

Mr. Elizarde expressed concern that developers would now be required to take full liability for a development project after completion and the Waterworks would take no liability.

Dustin Moore, Moore Land Surveying, told the Board that seemingly small changes to the development regulations result in big repercussions for the developer and that the new regulations would have a heavier monetary impact on developers. He suggested the Board consider phasing in regulations instead of immediate implementation, in consideration of the engineers and developers who had already invested in their development projects.

This event is intended to reach the community of Harlingen, bringing education and awareness of the operations for the Waterworks. Mr. Skoglund explained the Waterworks had been doing a similar event during Drinking Water Week in May at the Jackson Street Market Days.

In an effort to focus only on Harlingen residents and not those from other communities who attend Market Days, the community engagement effort would move to a bigger venue to showcase the entire operations of the Waterworks. The event is intended for all ages. Activities were to include department displays, games, educational handouts, interactive
activities for the kids, including face painting, balloon twisting and moon jumps. Free pizza
and soft drinks were to be served.

City staff would also have a booth at the event to help get the word out on how important
it is to have everyone counted in the 2020 Census.

Mr. Skoglund informed the Board promotion efforts were planned including newspaper,
area schools, City and HWWS websites, magnets on Waterworks’ trucks, and social
media. The Board was invited to attend this event and help us to get to know our
customers better. Discussion by the Board ensued.
